A line of severe thunderstorms brought scattered high wind and hail to Northwest Alabama.

ALABAMA, North

(AL-Z001) LAUDERDALE, (AL-Z004) LAWRENCE, (AL-Z009) JACKSON, (AL-Z010) DEKALB

	02/01/07 00:00 CST		0	Heavy Snow
	02/02/07 11:00 CST		0	

A low pressure system tracked through the western and northern Gulf of Mexico and brought a flow of moisture northward into the Tennessee Valley. This resulted in a wintry mix of precipitation including snow, sleet and freezing rain beginning by late evening on January 31st, and lasting through the early morning hours of February 1st. Warmer air drawn northward changed the wintry precipitation to rainfall or drizzle by mid to late morning. Snow amounts ranged from 1 to 2 inches across far northern Alabama and southern middle Tennessee, with some sleet accumulation mixed in. Freezing rain produced only minor ice accumulation.

MADISON COUNTY --- MOORES MILL [34.85, -86.52]

	02/24/07 22:35 CST		0	Thunderstorm Wind (EG 50 kt)
	02/24/07 22:35 CST		0	Source: Emergency Manager

A tree was blown down.

A strong low pressure system moving northeast through the southern and central Plains pushed a cold front and squall line of thunderstorms into the mid and deep South during the late afternoon and evening hours. Ahead of the cold front, strong southerly wind gusts of 45 to 55 mph blew down a few trees across north Alabama including Lauderdale, Lawrence, Morgan, and Madison counties. The portion of the squall line which affected north Alabama weakened, with only one report of thunderstorm wind damage reported.

ALABAMA, Southwest

MOBILE COUNTY --- CITRONELLE [31.08, -88.23]

	02/13/07 07:30 CST		0	Hail (0.75 in)
	02/13/07 07:32 CST		0	Source: Emergency Manager

A severe thunderstorm produced penny sized hail in Citronelle.

MOBILE COUNTY --- GRAND BAY [30.47, -88.35]

Storm Data and Unusual Weather Phenomena - February 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	02/13/07 07:51 CST		0	Hail (0.75 in)
	02/13/07 07:53 CST		0	Source: Emergency Manager

A severe thunderstorm produced penny sized hail in Grand Bay.

A line of severe thunderstorms ahead of strong cold front moved across southwest Alabama.
