Saturday

Timing, Snowfall, Impacts, Confidence Tonight– Saturday Morning

Timing:

- Precipitation moves north into southern KY late tonight, spreads into southern Indiana by early Friday afternoon, ending early Saturday morning
 - Most significant icing late tonight
 - Most significant snow Friday

Precip:

- Snow expected over south-central Indiana and north-central Kentucky
- Freezing rain and/or sleet over central/south-central Kentucky late tonight changes to snow Friday
- Snow will be heavy at times over portions of central Kentucky Friday

Impacts:

- Very hazardous road conditions likely late tonight through Saturday morning
- Power outages possible in heaviest ice and snow regions due to winds gusting near 35 mph at times Friday.

Confidence:

- Very high confidence in winter storm occurrence and major impacts tonight through Saturday morning
- Medium confidence in snowfall amounts, with biggest bust potential across southern Indiana where a sharp snow gradient will exist
