

Storm Data and Unusual Weather Phenomena - January 2016

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

NEBRASKA, East

(NE-Z088) JEFFERSON

01/20/16 19:00 CST	0	Heavy Snow
01/21/16 09:00 CST	0	

A storm system diving into the southern Plains on the evening of Wednesday January 20th was just close enough to allow for some snow over parts of southeast Nebraska. A surface boundary extending north from the system to near the Kansas and Nebraska border provided a focus for a concentrated area of heavy snowfall in Jefferson County. The heavy snowfall ended by morning on the 21st, but resulted in difficult travel conditions from the significant snowfall.
