01	0000CST		0	0					
30	2359CST								DROUGHT

Drought conditions continue from May. By the end of June, many locations across SE TX were 8-12 inches below normal in rainfall amounts since March. Agriculture losses continue to escalate as well as heat related medical conditions/deaths. Afternoon highs were regularly around the century mark with overnight lows only falling into the upper 70s to lower 80s. With little chance of significant rainfall anytime soon, drought-like conditions will continue into July.

AUSTIN County

WELCOME	05	1556CST		0	0	3K			Hail (1.00)
