### OKLAHOMA, Western, Central and Southeast

**OKZ014>016-021>022 Roger Mills - Dewey - Custer - Beckham - Washita**  
**15 0600CST 1400CST 0 0 Heavy Snow**  
 Rain changed over to snow during the morning and early afternoon hours of March 15th. A band of heavy snow developed affecting the higher terrain of western Oklahoma. Due to the warm ground temperatures snow did not remain for very long and affected mostly grassy areas. The majority of the snow fell between 8 am and noon CST. Widespread amounts of two to four inches of snow were reported in west central Oklahoma. However, several locations in western portions of Roger Mills and Beckham county measured four to seven inches of snowfall.
