Several power lines were downed by the severe winds. Monetary damages were estimated.				
A cold front moved southeast through Oklahoma during the day on the 21st as an upper level storm system moved east through the central plains. Thunderstorms developed first over parts of eastern Oklahoma, and built southwest along the front into the southeast half of Oklahoma. Many of the storms became severe with marginally severe hail and strong winds. Some flooding was reported near Mill Creek, closing several county roads. Minor damage was reported with the high winds.				
BECKHAM COUNTY --- 4.0 W SWEETWATER [35.42, -99.98]				
	09/30/09 18:07 CST		0	Hail (1.75 in)
	09/30/09 18:07 CST		0	Source: Public
Thunderstorms developed along a dry line in the Texas panhandle. One thunderstorm maintained its strength as it moved west of Sweetwater. Golf ball-size hail was reported before the storm rapidly weakened over central Beckham county.
