BRYAN COUNTY --- 2.4 SSE BLUE [33.97, -96.21], 10.6 NNE BOKCHITO [34.16, -96.06]

| | | | |
|--------------------|----|-------|---|
| 04/30/19 20:07 CST | 2 | 0.30M | Tornado (EF3, L: 15.40 mi , W: 1400 yd) |
| 04/30/19 20:26 CST | 11 | 0 | Source: NWS Storm Survey |

A tornado developed about 2 miles south-southeast of Blue, and quickly became a large and strong tornado. Before crossing SH-70 east of Blue, the tornado widened to 1400 yards and damaged or destroyed a number of mobile homes. One mobile home was blown about 50-75 yards east-northeast into a grove of trees. A woman in this mobile home suffered significant injuries and died in a hospital on May 2. The tornado crossed US-70 producing significant tree damage. Just north of US-70, another mobile home was destroyed and blown away with another fatality. The tornado moved northeast into a less densely populated area, although at least one other home was unroofed northeast of Blue.

About two miles south of the Atoka County line, the tornado hit an anchored mobile home that was destroyed with the debris scattered hundreds of yards to the east and southeast. The tornado continued to produce tree damage in northern Bryan County and moved into Atoka County near just west of Matoy Road.

Direct Fatalities: F58MH, F83MH

ATOKA COUNTY --- 4.5 SSE BENTLEY [34.16, -96.06], 1.6 NE LANE [34.32, -95.97]

| 04/30/19 20:42 CST | 5 | 0 | Source: NWS Storm Survey |

This tornado initially developed in Bryan County near Blue, and entered Atoka County just west of Matoy Road. The tornado produced widespread tree damage as it moved northeast crossing Matoy Road on either side of Clear Boggy Creek. North of the creek, a cabin or small home was destroyed, and another home was damaged. As the tornado moved north-northeast, damage continued to trees, power poles, and sheds. One mobile home was blown off piers south-southwest of Lane. The tornado weakened as it approached State Highway 3 and the town of Lane. The tornado brushed the town of Lane with some tree and shingle damage before dissipating about 1.5 miles northeast of Lane.

Storm Data and Unusual Weather Phenomena - April 2019

| Location | Date/Time | Deaths & Injuries | Property & Crop Dmg | Event Type and Details |
|---|--------------------|-------------------|---------------------|--|
| <p>This tornado was observed by spotters and storm chasers, and was occurring at the same time as the other Clay County tornado for a short duration of time. No damage was found and the location of the tornado is estimated.</p> | | | | |
| <hr/> | | | | |
| CLAY COUNTY --- 4.7 NW DEAN [34.00, -98.41], 1.4 NNE CHARLIE [34.12, -98.31] | 04/30/19 15:36 CST | | 40K | Tornado (EF1, L: 10.00 mi , W: 300 yd) |
| | 04/30/19 15:56 CST | | 0 | Source: NWS Storm Survey |

A tornado moved northeast and north through the northwestern portion of Clay County. The first damage was observed to trees along FM-1740 about one mile east of the Wichita County line. The tornado moved northeast along or just east of FM-1740 producing tree damage before turning north-northeast and passing just west of the town of Charlie. Two outbuildings were damaged southwest of Charlie, a house was damaged just west of Charlie, and a mobile home unroofed north of Charlie.
